

Stable Realized by Flexible

- ▶ Take a look at what to be assured
 - ▶ Lints → Code's quality but not product's
 - ▶ Reports
 - ▶ Testing → Product's quality (IOW, for QA)
 - ▶ Assembling
 - ▶ Deployment → For QA and DX but on demand usage

Stable Realized by Flexible

- ▶ So, how should failures be propagated?
 - ▶ Lints → Accept failures
 - ▶ Reports
 - ▶ Testing → Never accept failures
 - ▶ Assembling
 - ▶ Deployment → Depends on branches
