

Be Flexible, Configurable, Semi-Interactive

- ▶ Be flexible with failures
 - ▶ **We** should handle CI failures instead of commands
- ▶ Be configurable by injection
 - ▶ Manipulate dependencies & platform-specific values.
- ▶ Be semi-interactive
 - ▶ Collect stats and reports, also rely on the bot.

Be Good Examples and Provide a Deployment Pipeline

- ▶ Be good examples
 - ▶ Show how to set up, how to collaborate with CI
- ▶ Give a chance to use Deployment pipeline
 - ▶ Small but enough if it's effective. (minimum req.)
