

Environment Agnostic by Configurable

- ▶ Be independent on specific CI/CD services
- ▶ Separate implementations for each platforms

Environment Agnostic by Configurable

- ▶ Be independent on specific CI/CD services
- ▶ ~~Separate implementations for each platforms~~
- ▶ Configure inputs and dependencies before processing
 - ▶ Not a BLoC pattern but refer to it
 - ▶ Define CL inputs and injectable dependencies
 - ▶ Don't depend on any platform in the core logic
