

## Stable Realized by Flexible

- ▶ ~~No failure is required anyway!~~
- ▶ Flexible with failures.
  - ▶ What's non-flexible with failures?
    - ▶ Fail CI anyway if any task fails like ``set -e`` in the shell.
    - ▶ CI Steps are sequential, so...
  - ▶ Make CI/CD fail with depending on the commands.

## Stable Realized by Flexible

- ▶ Let's categorize commands by their aspects
  - ▶ Lints
  - ▶ Reports
  - ▶ Testing
  - ▶ Assembling
  - ▶ Deployment
