- ▶ Comment issues based on Android Lint results

The screenshot shows a GitHub comment from the bot 'jmatsu-bot' dated October 14, 2018. The comment is categorized as a 'Collaborator' and includes a '+ 🤖' icon. It displays the results of an Android Lint analysis, organized into two sections: '1 Error' and '1 Warning'. The error section contains one item: 'Test results not found', indicated by a red prohibition icon. The warning section contains one item: 'frontend/build.gradle#L13 - Not targeting the latest versions of Android; compatibility modes apply. Consider testing and updating this version. Consult the android.os.Build.VERSION_CODES javadoc for details.', indicated by a yellow warning icon. At the bottom right, it states 'Generated by 🚫 Danger'.

- ▶ Comment failures in JUnit style reports

The screenshot shows a GitHub comment from the bot 'jmatsu-bot' dated Jan 11. The comment header includes the bot's profile picture, name, date, and a 'Collaborator' badge. The main content area displays '2 Errors' in a table. The first error row contains a red prohibition icon and the text 'Tests have failed, see below for more information.' The second error row contains a red prohibition icon and the text 'Please check the artifacts of CircleCI. Test reports would be available there.' Below the errors, the section 'Tests:' is followed by a table with three columns: 'Name', 'Classname', and 'Ti'. The table contains one row with the values 'loadingState', 'io.github.droidkaigi.confsched2019.session.ui.store.SessionContentsStoreTest', and '0:'. At the bottom right, it says 'Generated by' followed by a red prohibition icon and the word 'Danger'.
