Stable Realized by Flexible

▸ ~~No failure is required anyway!~~

▸ Flexible with failures.

   ▸ What's non-flexible with failures?

      ▸ Fail CI anyway if any task fails like `set -e` in the shell.

      ▸ CI Steps are sequential, so...

   ▸ Make CI/CD fail with depending on the commands.

Stable Realized by Flexible

▸ Let's categorize commands by their aspects

  ▸ Lints

  ▸ Reports

  ▸ Testing

  ▸ Assembling

  ▸ Deployment
