Stable Realized by Flexible

▸ Take a look at what to be assured

▸ Lints

▸ Reports

➡ Code's quality but not product's

▸ Testing

➡ Product's quality (IOW, for QA)

▸ Assembling

▸ Deployment ➡ For QA and DX but on demand usage

Stable Realized by Flexible

▸ So, how should failures be propagated?

▸ Lints

➡ Accept failures

▸ Reports

▸ Testing

➡ Never accept failures

▸ Assembling

▸ Deployment ➡ Depends on branches
