Sorry, your **session submission has been declined**.

We are engineers so we should go with lazy methods.

In this talk, I will explain

- What can be semi- and/or fully- automated
- How to automated stuff like
- Introduce Danger
- Report differences between two apk files
- Import design assets to vector drawables or png files
- License files
- Proguard rules
- Report results of static analysis

DECLINED ~~SUCCESSFULLY~~

What I Wanted Talk About

▸ Automate ~~everything~~ many things

  ▸ Report tests, stats

  ▸ Import SVG assets w/ optim.

  ▸ Import any other materials

▸ Keyword:

  ▸ Be lazy, mistake-less development
