Be Good Examples and Provide a Deployment Pipeline

Points To Be Improved

▸ So many many many... lets pick up several points.

▸ CircleCI Checks are not visible to everyone

▸ Use Orbs by upgrading to CircleCI 2.1

▸ Promote the alpha track to production safely

  ▸ CircleCI's approval is it. If TravisCI is for contributors and CircleCI is for the release, then it made sense.

Be Good Examples and Provide a Deployment Pipeline

▸ Be good examples

  ▸ Show how to set up, how to collaborate with CI

▸ Give a chance to use Deployment pipeline

  ▸ Small but enough if it's effective. (minimum req.)
